

SPENCER CAPPIELLO

Senior Full-Stack Web & Creative Developer

US Remote

Website: spencercappiello.com

Visual Portfolio: bit.ly/sc-work-deck

LinkedIn: linkedin.com/in/spencercap

Contact: hi@spencercappiello.com

I measure success when technology feels like magic.

Creative, solution-oriented Full-Stack Thinker-Designer-Developer with 7+ years innovating with cutting-edge tech & eager to define the next digital paradigms. Combines background in coding & interaction design with AI tools to elevate online marketing & IRL activations for brands & cultural institutions.

SKILLS

Languages: TS/JS, HTML5, CSS3, Python, SQL, Swift. **Frameworks:** Vue, React, Stencil, Web Components. **Tooling:** Vite, Git, ESLint, esbuild, pnpm. **Libs/APIs:** Three.js, PixiJS, GSAP, Theatre.js, D3.js, Tone.js, UnJS, Pinia, REST APIs/Fetch, WebRTC, WebGL, WebXR, Vitest, Puppeteer, Beautiful Soup. **Integrations:** Mapbox, MongoDB, Auth0, Stripe, n8n, Zapier, Make.com, IFTTT. **Web3:** Algorand, AVM, EVM, Solidity, Smart Contracts, Wallets. **Back-end:** Node.js, Deno, Cloudflare Pages & Workers, AWS Lambda, Prisma, PostgreSQL, NoSQL. **Platforms:** Google Cloud, Firebase, Supabase, Vercel, Webflow, Framer, Shopify, Divhunt, Nordcraft. **AI Tools:** Cursor, Claude, MCP Servers, OpenAI APIs (Text & Images), Nano Banana, Midjourney, Hugging Face, Vector Embeddings. **Design (2D/3D):** Figma, Illustrator, Affinity, Blender, Cinema4D, Unreal Engine, Spline3D. **Creative Tech:** Final Cut Pro, After Effects, Ableton, MaxMSP, OSC, MIDI, DMX, WLED, Arduino, Raspberry Pi, ESP32.

EXPERIENCE

Freelance Webflow/JS Developer [Finsweet](#) (US/EU Remote) 2025 – Present

- ❖ Collaborates with clients & design teams to bring static mockups to life on the web
- ❖ Specialization in complex JS integrations, custom code & interactive 2D/3D animations using WebGL (Three.js, PixiJS, Theatre.js)
- ❖ Uses & contributes to Finsweet's open-source tools (Attributes, Client-first, Components & Wized) to create powerful sites & web apps

Full-Stack Creative Developer [SPAC3](#) (EU Remote) 2024 – Present

- ❖ Founder of SPAC3 – a micro-agency for online development & digital consulting
- ❖ Develops manageable low-code websites (Webflow, Framer, Nordcraft), CMS-powered blogs, e-commerce sites (Shopify) & fully custom web apps & components (TS, Vite, Vue, React)
- ❖ Configures web integrations & custom coded solutions (front-end & back-end)
- ❖ Designs logos & reusable style guides for online & print use (CSS, Figma, Illustrator, Affinity)
- ❖ Fluent in async communications tools (Slack, Discord, Notion, Loom, Zoom) & creates comprehensive walk-thru video documentation & Markdown READMEs
- ❖ Past clients & visual portfolio: bit.ly/sc-work-deck

Lead Engineer (First employee) [The New Computer Corporation](#) (US/EU Hybrid) 2020 – 2024

- ❖ Performed constant R&D of emergent tech such as voice assistants, LLMs (GPT-3 beta developer), WebRTC mesh networks, edge computing & web3 smart contracts & wallets
- ❖ Designed intuitive UI/UX (Figma, WebGL) for interactive prototypes (Vue) & production-grade apps deployed to serverless architectures (Cloudflare, AWS) with various DB integrations
- ❖ Architected & developed REST APIs, internal TS packages & open-source [web3 tooling](#)
- ❖ Collaborations with: Algorand Foundation, Coinbase, Warner Music Group, Run-DMC, & Run the Jewels. Debuted tech at SXSW, ETHDenver, III Points, Refraction Festival

- Hardware Engineer / App Developer** [Monohm Inc](#) (Berkeley, CA) 2014 – 2018
- ❖ Designed novel interfaces & UX for [Runcible](#), an alternative smartphone with a round screen
 - ❖ Developed ‘watch-face apps’ (wrapped web apps) for the custom Android OS fork
 - ❖ Prototyped hardware add-ons & device cases using 3D modeling & printing (Rhino, Ultimaker)
- Creative Technologist** [Relevant Motion](#) (Brooklyn, NY) 2017 – 2018
- ❖ Co-founded a health-tech startup that gamified physical therapy exercises in VR
 - ❖ Re-engineered [Notch](#) Bluetooth sensors to stream full-body motion capture movements via OSC to mobile VR apps (for iOS & Android using Unreal Engine)
- Fabrication Lab Manager** [NYU MAGNET](#) (Brooklyn, NY) 2016 – 2018
- ❖ Led equipment training sessions, assisted inventors & maintained makerspace tools & machines, including: 3D printers, laser cutters, CNC routers
- Interactive Web Intern** [Guggenheim Foundation](#) (New York, NY) 2017
- ❖ Modernized the Guggenheim website for best practices in accessible design
 - ❖ Organized & presented competitive analyses of museum exhibition pages & events calendars
- Experience Developer** [VESSEL](#) (Brooklyn, NY) 2017
- ❖ Conceived & coded an interactive motion capture dance performance where participants engaged in a live feedback loop by answering questions about love & digital communication in a chatroom (SocketIO web app) while a dancer, rigged in a full motion capture suit, embodied audience sentiments by listening to the digital discourse through an earpiece
 - ❖ Digitized body movements & audience responses coordinated via OSC & visualized as particle systems in Unreal Engine & projection mapped onto 3 walls of the room
- Sensor / Field Engineer** [Sounds of New York City ‘SONYC’](#) (NY, NY) 2016
- ❖ Performed upgrades, repairs & installations of Raspberry Pi sensor nodes in distributed IoT mesh network measuring large-scale noise pollution

EDUCATION

- NYU Tandon School of Engineering** (Brooklyn, NY) 2018
- Bachelor of Science in Integrated Design & Media
- ❖ Magna Cum Laude
 - ❖ Best Senior Thesis Award
 - ❖ Tandon Scholarship recipient
- NYU Steinhardt Graduate Summer Study** (Berlin & Kassel, Germany) 2017
- ❖ Contemporary art focus with visit to Documenta 14
- San Francisco Art Institute** (San Francisco, CA) 2012 & 2013
- ❖ B&W film photography, lithography & screen printing
